| SECTION 3.0 | TW ENGINEERING CO. LTD ENVIRONMENTAL MANUAL ENVIRONMENTAL POLICY | PAGE 1 OF 1 |
| ISSUE: 02 | | DATE 05/10/10 |
| | | APPROVED:- <i>D Elliott</i> |

In the context of increasingly stringent legislation, TW Engineering Company Ltd. recognises its duty and responsibility towards the environment.

In accepting and promoting our responsibility and by compliance with applicable legislation and other requirements and the prevention of pollution balance with socio-economic needs, the company shall endeavour, through implementation of the best available technology, where economically viable, improve, support and foster environmental protection.

The company will carry this out by :-

- Implement, maintain and continually improve an environmental management system.
- Comply with applicable environmental law and legislation and other requirements.
- Control and reduce waste and emissions arising from our manufacturing operations.
- Ensure all employees are aware of their individual responsibilities and actions through the implementation of training.
- Set (SMART) specific, measurable, agreed, realistic, time-bound objectives and targets for improved overall company environmental performance.
- Ensure that our plant and equipment is capable of supporting our environmental objectives.
- Reduce or eradicate the use of hazardous and polluting substances.
- Foster environmental protection, and a general growth of concern from interested parties about environmental matters including sustainable growth.
- Monitor impacts of our activities, products or services on the environment.

The Management is fully committed to this policy and will give support to those who endeavour to implement it.

This policy will be kept under review and formally revised at intervals not normally exceeding 12 months.

Review date...05/10/10
